

PHYTOBIOPHYSICS®

Phytobiophysics Podo Rhacidian Therapy

Thursday June 30th 2022 & Friday July 1st 2022

Trainer: Diana Mossop
The Institute of Phytobiophysics, UK

Podo-Rhacidian Therapy

Le Prevot, La Grande Route de St Clement

Thursday 30th to Friday 1st July inc

Sinus Tonsil /Vertebral PRT Fee: £300

lecturers: Diana /Nicola Fahey

**(Suitable for every level of practitioner having attended a BIC or
Website/correspondence BIC or introductory seminar]**

Advanced Cranial Podo–Rhacidian Fee:

£300 Lecturer Anthony Mossop

**Suitable for practitioners who have attended vertebral and sinus
tonsil podo-rhacidian and have actually practiced the therapy
for at least 6 months .**

Lecturer: Anthony Mossop

**PODO-RHACIDIAN MOBILISATION THERAPY; VERTEBRAL SINUS/TONSIL
PODO-RHACIDIAN**

Thursday 30th June & Friday 1st July

VENUE:

Le Prevoit La Grande Route De St Clement Jersey JE2 6QQ

Podo-Rhacidian is a complete therapy in itself for gentle structural realignment but is also a meridian activation therapy and facilitates the release of toxins and disease taints in such a fashion as to be an invaluable part of the Phytobiophysics treatment plan, or indeed any holistic healing programme

It is a unique method of cranio-sacral therapy using soft tissue release on the peripheral joints of the body in order to bring about musculo-skeletal and neuro-structural balance; effectively and safely used already by hundreds of Phytobiophysics practitioners. The Full Training comprises two weekends with sufficient time between to practice and absorb the full value of the 1st course. After the 1st weekend Practitioners will be confidently able to treat the full spine by identifying spinal weakness, supporting with associated formulas and treating from a choice of three individual spinal methods. The advanced course focuses on the more integrated and complete Cranial system with associated connections to the Meridians.

.Anatomy and Physiology required to an acceptable level.

Basic vertebral Podo-Rhacidian Sinus Tonsil Podo-Rhacidian

THURSDAY 30th June

09.00-11.00 REGISTRATION/INTRODUCTION

10.00-11.20 Theory and Mechanism of action of Podo- Rhacidian

BREAK

11.40-1.00 Muscle testing, locating weakness

LUNCH

1. Vertebral Podo-Rhacidian Type Ia

BREAK

3.50-5.00 Practical of type Ia

Friday 1st July

9.00-11.20 Vertebral Podo-Rhacidian Type Ib

BREAK

11.40 -1.00 Vertebral Podo-Rhacidian Type II

LUNCH

1. Practical

BREAK

3.50-4.30 Sinus and Tonsil Podo-Rhacidian

4.30-5.00 Treatment Protocols

Syllabus Advanced Cranial Podo-Rhacidian Therapy

THURSDAY 30TH June 2022

10-10.30 **Recap and questions of Vertebral/sinus Tonsil**

10.30-11.30 **Theory and Mechanism of action of Cranial**

BREAK

11.50-1.00 **Cranial Nerves and Meridian Interrelationship**

LUNCH

2.00-3.30 **Methodology of Cranial Podo-Rhacidian**
3.30-5,.00 **practical**

FRIDAY 1ST JULY 2022

10.00-11.30 **Intoduction to Vagus**

BREAK

11.30 -1.00 **Continue**

LUNCH

2.00-5.00 **Practice and Questions**

Phytobiophysics® Podo-Rhacidian Therapy (PRT)

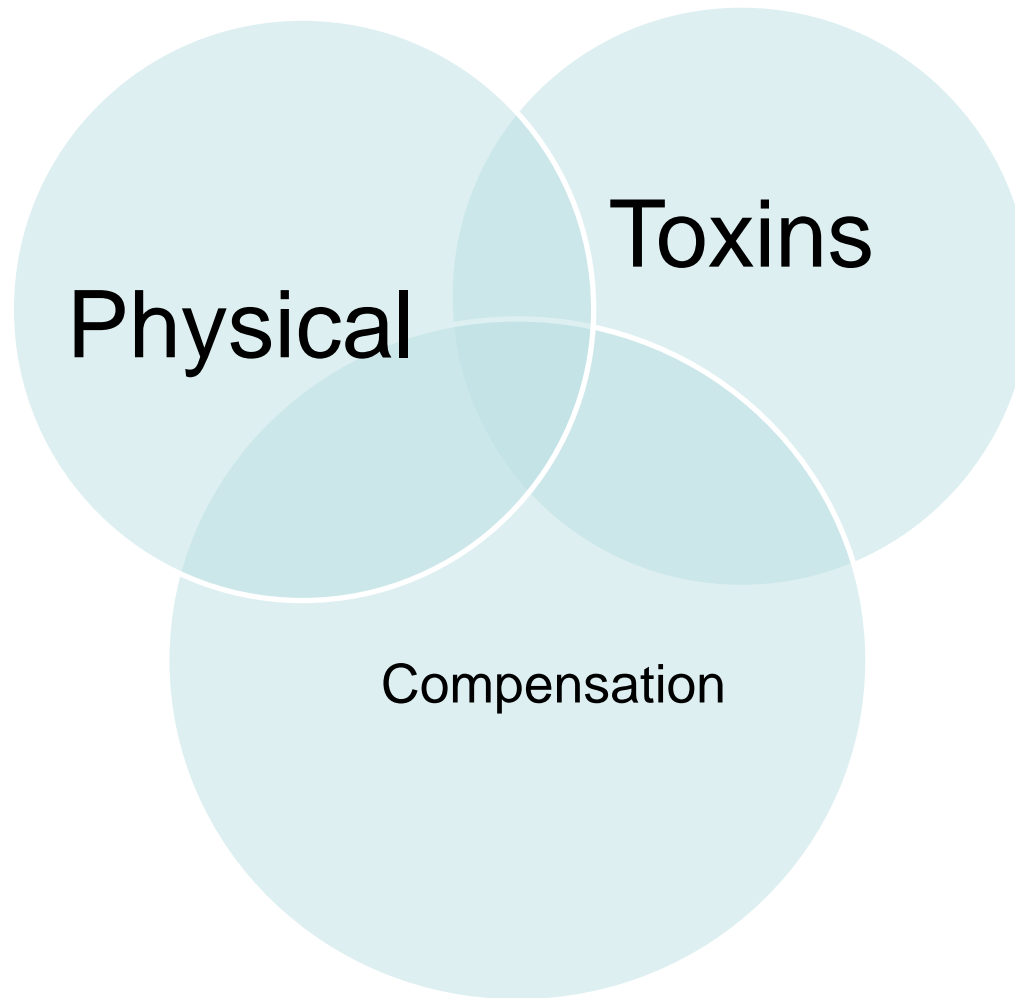

PRT has been used to aid in the following treatment:

- Chronic fatigue
- Lowered vitality
- Recurrent infection
- Sinus and tonsil problems
- Reduced mobility
- Chronic vertebral pain
- Jaw (TMJ) problems
- Pelvic misalignment
- Headaches and migraines
- Menstrual and
- Emotional and mental stress
